

TSA 008 *

4-DIGIT COMBINATION TSA TRAVEL LOCK

- 1 Advance TSA008 Core Security**
 Upgraded with the high-security TSA008 cylinder, this lock offers superior anti-picking resistance compared to standard TSA00-007 core.
 
- 2 Search Indicator**
 Know if your luggage has been opened or not. If TSA agents inspect your luggage, the indicator will change to red to alert you. You can also reset to green afterward.
 
- 3 Durable Body**
 Unmatched durability with premium zinc alloy body and stainless steel cable.
 
- 4 10,000 Combinations & Easy Reset**
 The 4-digit mechanism provides 10,000 unique combinations—10x more secure than 3-digit locks. High-contrast dials ensure easy reading and an error-free code setup process.
 
- 5 Mandatory Re-Lock**
 The TSA008 master key cannot be withdrawn until the lock is reengaged - bags are never left unlocked after inspection.
 
- 6 Hidden Push-Button**
 Release button retracts flush with the body when open - snag-free on fabric and zippers, no accidental unlocks.
 

NEW ARRIVAL
#13550A

NO DAMAGE INSPECTION
TSA008 cylinder lets security open & relock your bag - no cutting, no damage.
